Home Gardeners Workshop

Presented by
The Ohio State University Extension
and Lake County
Master Gardener Volunteers

Saturday, March 9, 2013

8:15 - 9:00 Registration and
Light continental breakfast

9:00 - 3:45 Program

At Lakeland Community College

Are you thinking ahead to spring?
Why not join fellow gardening enthusiasts
at the Lake County Master Gardener

12th Annual Home Gardener's Workshop
where you may attend four classes of your
choice; enjoy light breakfast, lunch and
snacks; and share the enthusiasm
gardening brings to so many.

Growing Interest in Vegetable Gardening

With the resurgent interest in backyard vegetable gardening we have assembled a track of classes aimed toward those new to vegetable gardening or those who want to enhance their knowledge and increase their success. You may register for one, two, or more of these classes as you wish.

Look for the *peapods* on the agenda if you want to choose classes with appropriate content for starting a new vegetable garden.

PROGRAM AGENDA

Registration and Light breakfast

8:15-9:00

Introduction

9:00-9:15

Session 1

9:15-10:30

(Make a 1st and 2nd choice from A, B or C)

Break

10:30-10:45

A. Starting a New Vegetable Garden? What You Need to Know

Master Gardener Volunteer Team

There's nothing fresher and more nutritious than home grown vegetables. If you're considering a home garden, join us and learn the **basics** about location, size, soil-testing, soil preparation, what and when to plant, layout, and more.

B. Design with YOU in Mind Landscape Design is an Art Form

Laura Deeter, Ph.D.

There are 'rules' that can and should be followed and rules that can and should be broken! As each designer, client, home, yard, and environment are different, the ideas can change for each area. Discover the 'art' in your landscape and bring out your inner designer!

C. Hostas – The Ultimate Shade Plant

Bill Hendricks, President, Klyn Nurseries. Inc.

Getting the most out of hostas in your garden starts with understanding their culture, pests and propagation as well as where and how they work best in combination with other plants.

Session 2

10:45-12 Noon

(Make a 1st and 2nd choice from D,E, or F)

Lunch (Breakers dining area)

12 Noon-1:00

D. Vegetables from A to Z.

Dick Zondag, President, J. W. Jung Seed Co.

This presentation will list many of the available vegetables for the garden. In it you will learn the best varieties to use if you are a beginning gardener and how to improve them each year. This session will also include tips that will help you improve the results of your garden.

E. Selecting Roses for the Landscape

Elton M. Smith, Smith's Gardens, Inc.

Selecting the proper class of rose is the first step in success. These include hybrid tea, grandiflora, floribunda, shrub, polyantha, old garden roses and the newest classes, miniature and miniflora. Hardiness and pest and disease resistance/control will be reviewed.

F. The How-to for Hydrangea Success

Bill Hendricks, President, Klyn Nurseries. Inc.

Do you want to know "Why doesn't my hydrangea bloom?" or "Why is my blue hydrangea pink?" These and other questions including proper selection and care of hydrangeas will be answered.

Session 3

1:00-2:15

(Make a 1st and 2nd choice from G, H, or I)

Break and Refreshments

2:15-2:30

G. Maintaining a Vegetable Garden

Master Gardener Volunteer Team

Vegetable Gardening doesn't have to be a chore. In this session we will cover **basic** concepts to make gardening less time consuming and more efficient. Good practices for successful, productive vegetable gardens will be included.

H. Growing Perennials Successfully

Elton M. Smith, Smith's Gardens, Inc.

Success in growing perennials is usually due to planting in the proper location with consideration to light and soil conditions. Equally important, especially the first year, is proper maintenance including watering, fertilizing, pruning and over-wintering. New and improved cultivars will be discussed.

I. Gardens for Small Areas Using the Square Foot Gardening Method

Dick Zondag, President, J. W. Jung Seed Co.

Learn the basics of using the square foot gardening method to grow vegetables even in small yards. Structures used, mix of soils, and other hints will be discussed. Also hear why this method works so well.

Session 4

2:30-3:45

(Make a 1st and 2nd choice from J, K, or L)

Get your parting gift in the lobby.
Hope to see you next year!

J. Top Vegetable Garden Pests You Need to Know and Control

Charles Behnke, OSU Horticulture Educator, Retired

From start to finish, bugs and disease are going to attack your vegetables. Learn what garden pests to expect in 2013 and what means you might select to control them.

K. Continual Color without Continual Hassle

Laura Deeter, PhD

All those glorious color combinations are based on the science of color theory. Color is also highly subjective. Attendees will learn the basics of the science of color as well as different ways that color can be used effectively in the seasonal garden. It's not as complicated as it might seem and it can be done with humor!

L. For Great Lawns: "You Gotta Feed the Roots!"

Bill Hudson, OSU Extension Educator, Retired

Green, lush, healthy lawns are the result of taking care of business underground where the roots are. A well nourished lawn will be the envy of the neighborhood and that lawn can be yours! Follow a few timely steps and your lawn will be the one everyone admires.
