

Cleveland High Tunnel Production and Use Workshops

(All events are free of charge, snacks will be provided)

Are you awaiting your new hoop house? Or already getting started with hoop house farming? These free workshops will cover all topics related to year-round high tunnel production and marketing. Topics will include crop selection and planting dates; projected yields; fertility and soil health/maintenance; irrigation options and water application rates; pest and disease management; pricing, marketing, and farm economics. Come with questions, leave ready to jump in!
