

# PROGRAM SERIES

## Planting for a Purpose - *Native Plants*

Planting for a Purpose is a concept rooted in changing the "traditional" home landscape into a naturally functioning oasis benefiting humans and nature. Traditional landscapes have focused on form, not function. Planting for a Purpose is an effort to change this narrative one back yard at a time. All programs at Liberty Park Nature Center: 9999 Liberty Rd., Twinsburg.

*Sunday, February 25, 1 - 2:30 p.m.*

Plant Native – What they are and why they matter

*Saturday, March 17, 1 - 2:30 p.m.*

Attracting Wildlife With Native Plants

*Saturday, April 14, 1 - 2:30 p.m.*

Native Bees of Liberty Park

*Saturday, May 19, 11 - 1 p.m.*

*Sunday, July 22, 1 - 3 p.m.*

Native Shrubs in the Landscape

*Sunday, August 12, 1 - 2:30 p.m.*

Yellow Native Flowers – Sunflowers, Goldenrods and more

Summit Metro parks has developed a series of "Native" plant programs throughout the summer of 2018. It is our hope that we can partner with the Master Gardener's program in the southeastern parts of Cuyahoga and the southwestern parts of Geauga counties respectively to provide quality educational programs for your Master Gardeners. These programs could potentially count toward CEU'S for your MG's. We are excited to partner with you in this new opportunity. If this is of interest to your members and meets your standards for CEU'S, it is our wish that you email the flyer to your current Master Gardener's alerting them of this educational opportunity. If at any time you or a representative want to discuss the MG program at one of the session, we would gladly provide time for you to do so.
